TOYOTA GT86 / SUBARU BRZ

Perfect Muffler of Silence & High Power created by HKS

Lower exhaust sound for everyday driving.

HKS reduced this sound by tuning the exhaust sound so the sound at low to mid RPM is silenced like the stock exhaust system.

Low exhaust pressure design enables users to advance for the next tuning level.

This exhaust system can stand over 350ps.

Increase Driving Experience

This exhaust system enhances the driving experience provided for 86/BRZ.

Once the accelerator is pressed down, sporty and comfortable exhaust sound is created from normal placid tone.

EU APPROVED!

This exhaust has been approved for European use.
